

**Paul Fisher, M.Ph., Ph.D.**

*Virginia Commonwealth University School of Medicine*

*Professor and Chairman, VCU Department of Human and Molecular Genetics*

*Director, VCU Institute of Molecular Medicine*

*Thelma Newmeyer Corman Chair of Cancer Research, VCU Massey Cancer Center*

Paul Fisher, M.Ph., Ph.D., received his Bachelor's degree from Hunter College and his Master's from Lehman College. He went on to get his M.Ph. (Master of Public Health) and Ph.D. from Rutgers University, where he was also a postdoctoral fellow. Dr. Fisher later conducted research at Albert Einstein College of Medicine and at Columbia University, where he became a Professor of Clinical Pathology, the Director of Neuro-Oncology Research and the Michael and Stella Chernow Urological Cancer Research Scientist.

Dr. Fisher joined the faculty of the Virginia Commonwealth University's (VCU) School of Medicine in 2008 and is currently a Professor and Chairman in the Department of Human and Molecular Genetics, Director of the VCU Institute of Molecular Medicine and holds the Thelma Newmeyer Corman Chair of Cancer Research in the VCU Massey Cancer Center.

Dr. Fisher's laboratory focuses on understanding the molecular and biochemical basis of cancer development and progression, and utilizes this accrued knowledge to improve treatments for all types and stages of cancer, including the ultimate stage – metastasis.

Dr. Fisher is a visiting research professor, eminent research scholar and adjunct professor at New York University, and a visiting professor at Burnham Institute for Medical Research. Dr. Fisher won the CaP CURE Award for Prostate Cancer Research in 1995 and the Lustgarten Award in 2003, 2004 and 2005. Governor Terry McAuliffe recognized Dr. Fisher as Virginia's Outstanding Scientist of 2014. In 2017, Dr. Fisher was elected to the National Academy of Inventors (NAI).
